

A NEW WAY TO FIGHT THE BAD GUYS.

FRAUD ACADEMY

August 6 - 8, 2024

Fraud Academy is a pioneering initiative designed to arm bankers with the skills needed to detect and combat fraud. Our unique program features insights from experts across the DEA, FBI, law enforcement, AARP, and the financial industry, offering a robust education in fraud prevention from those who know it best.

With fraud costing every bank valuable time and money, our curriculum targets over eighteen types of fraud, including check fraud, elder fraud, cybercrimes, and introduces effective prevention tools. Equipping bankers with the knowledge to minimize fraud-related losses and protect your institution's bottom line.

INTRODUCING SHANE ENSMINGER

Fraud Academy Co-Founder

Senior Vice President, Director of Financial Intelligence & Security Unit, Central Bank & Trust Co.

Prior to joining Central Bank & Trust Co, I served 22 years with the Lexington, Kentucky Division of Police. During that tenure, I worked numerous assignments ranging from the Narcotics Enforcement Unit, Intelligence and Organized Crime Unit, FBI Criminal Enterprise Task Force, FBI Joint Terrorism Task Force, DEA Task Force, and the US Marshall's Fugitive Task Force. I have also served as the Assistant Commander of the Emergency Response Unit (SWAT). Needless to say, I've seen my fair share of bad dudes with bad intentions.

It's this wealth of experiences and the countless stories gathered along the way that sparked the idea of Fraud Academy. Here, our mission is to empower bankers with the knowledge, skills, and tools necessary to detect, prevent, and combat fraud in all its forms. Whether it's the latest in cyber fraud tactics, traditional deceit schemes, or the psychological manipulations used by criminals the world over, we cover it all.

Our curriculum is designed not just on theory but on real-world applications, drawn from decades of front-line experience in fighting against those who operate on the wrong side of the law. From up-to-date case studies, to hands-on simulation exercises, Fraud Academy offers a comprehensive learning experience that is both engaging and empowering.

Joining the Academy means you're ready to be counted in the war against fraud. The time where fraud losses were considered part of the business are gone. It's time to take a stand. Together, we can build a safer, more secure future.

Welcome to the beginning of your fight against fraud. We are thrilled to have you here and look forward to guiding you through every step of this crucial and rewarding path.

Shane Ensminger

“**FRAUD IS GROWING BIGGER EVERY YEAR. WE NEED TO RAISE AWARENESS NOW BEFORE IT'S TOO LATE. OUR BANKS, AND OUR CUSTOMERS, DEPEND ON IT.**

Shane Ensminger”

SPEAKERS

Chris Darmand

Chris is a Forensic Accountant with the Federal Bureau of Investigation. Mr. Darmand has over 23 years of experience in forensic accounting, financial and internal auditing, investigations, risk and controls assessments, and data analytics. He is a Certified Public Accountant, Certified Fraud Examiner, and Certified Internal Auditor.

Varinka Ensminger

Varinka is a retired Forensic Services Unit Detective with the Lexington Police Department and continues to teach Forensics Investigations to police and civilians. Currently, she is the Security Manager for the US Department of Defense, USSOCOM PEO SOFSA in Lexington, KY. She is also a Lt. Col in the US Army Reserves with over twenty years of military service and is an instructor with the Army Command and General Staff College.

David Hake

With nearly 20 years of IT experience and multiple IT certifications from Microsoft and Cisco, David Hake has spent his career designing, implementing and protecting critical IT networks. He now serves as the Director of Technology for Central Bank and leads the technology strategic, organizational, and business development efforts with a focus on cybersecurity. David has extensive experience in defending against zero-day exploits, cyber threats, and dynamic attack vectors using the latest techniques, strategies, and controls.

Gene Haynes

Gene has over 20 years of experience in Fraud Investigations. He has previously worked as a multistate Regional Fraud Investigator for a Supercenter Chain Department Store before joining the Lexington Division of Police where he served as a Field Training Officer, a Detective assigned to the Residential Burglary and Financial Crimes Units, and a Task Force Officer assigned to the I.R.S. Criminal Investigations. He is a Kentucky Law Enforcement Council Certified Instructor in the topics of Financial Crimes and Retail Theft & Fraud. He currently serves as the Chairperson of the Central Kentucky Financial Institutions Security Officer Association (FISOA) and a Board Member of the Kentucky Organized Retail Crime Association (KYORCA).

Mike Helsby

Mike is a retired Financial Crimes Detective with the Lexington Police department. He served 20 years with Lexington Police holding positions of Financial Crimes detective for 12 years and served as the task force officer with the United States Secret Service for 5 years. As a financial crimes detective Mike worked multiple skimming cases to include cloned cards, ATM and gas pump skimming. Mike has attended and hosted U.S.S.S sponsored skimming conferences with attendees from both the United States and foreign countries.

Troey Stout

As a Supervisory Special Agent leading a financial investigation group, Troey brings over two decades of expertise in combating drug trafficking and money laundering, spanning local to international operations. Troey's career with the DEA has been marked by deep involvement in complex narcotics investigations and developing critical strategies in undercover and surveillance operations. Recognized as a subject matter expert in areas including money laundering, cryptocurrency, and security measures, Troey has contributed as an instructor and expert witness, sharing knowledge with law enforcement and private sectors to fortify defenses against financial crime.

Richard Yancey

Richard Yancey is a Contract Financial Analyst for the United States Secret Service (USSS) in the Lexington, KY office. He joined the Lexington Division of Police serving most of his career in the Special Investigations Section/Intelligence Unit where he worked complex criminal cases with the USSS, DEA, ATF, and FBI. In 2015 he was asked to join a USSS Task Force to investigate a large Romanian financial fraud case involving the use of cryptocurrency to move illicit funds. He retired from the Lexington Police in 2017 and currently serves as an analyst for the USSS specializing in cryptocurrency investigations.
